## Avenue Business Solutions

### **ISO27001** Gap Analysis Service

#### **What is ISO27001?**

ISO27001 is the international standard for the management of information security

Our consultants are qualified ISO27001 Lead Auditors and have years of experience working with both public and private sector clients, successfully achieving ISO27001 certification

#### **Our Gap Analysis Service**

Our service is intended as a significant step towards helping you achieve compliance against the standard

The output of the gap analysis will show you the areas where effort will be required to meet the requirements of the standard

#### **How long will this take?**

- We allow for 2 days on site to conduct document reviews & to meet with stakeholders
- We allow 2 days for report writing and feedback
- We aim to produce the final report within 5 working days of the closing meeting

#### **Why do you need ISO27001 ?**

There are a number of reasons why compliance against the standard may be advantageous to you

- To protect your business by managing information security in line with the international standard
- To be able to demonstrate best practice to your internal stakeholders & to your clients
- To give your business an edge, over your competitors
- To provide a framework to meet with Legal & Regulatory requirements
- You may have entered into contractual obligations that require ISO27001 compliance

#### **What does our Gap Analysis Service include?**

- Engagement kick off meeting with senior stakeholders
- Documentation review
- Analysis against ISO27001 Mandatory Clauses
- Creation of Statement of Applicability
- Executive Summary and recommended actions report
- Closing meeting
- Final Full Report

#### **What additional services do we offer ?**

We offer a full compliment of ISO27001 services including full compliance | full certification, as well as transition to ISO27001:2013

#### **What does it cost?**

The standard package is available for £3,000 and will make for the perfect stepping stone in your efforts to progress to achieve compliance or certification against the standard
